

## **Chapter 3: Bioregions, Balanced Communities**

### **Characteristics of a Bioregion**

Read pages 58-64 and answer the following questions.

What is Flora? \_\_\_\_\_

\_\_\_\_\_

How do plants receive food? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Why are producers so important? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

### **Deciduous and Coniferous Trees**

What are Deciduous Trees? \_\_\_\_\_

\_\_\_\_\_

What are some examples of Deciduous Trees? \_\_\_\_\_

\_\_\_\_\_

Where are Deciduous trees found? \_\_\_\_\_

What happens during the spring? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

What happens during the summer? \_\_\_\_\_

\_\_\_\_\_

What happens in fall and why? \_\_\_\_\_

---

What are some examples of Coniferous trees? \_\_\_\_\_

---

How do they reproduce? \_\_\_\_\_

---

Where are they located and why? \_\_\_\_\_

---

Provide two reasons why needles are so important to Conifers? \_\_\_\_\_

---

Where do Conifers grow and why can they grow in this kind of soil? \_\_\_\_\_

---

The large Conifers that grow in these conditions create what? \_\_\_\_\_

---

Please color and label the Natural Vegetation regions of Canada map on page 60

## **Fauna**

What is fauna better known as? \_\_\_\_\_

All fauna are \_\_\_\_\_. Why? \_\_\_\_\_

---

What are herbivores? \_\_\_\_\_

What are carnivores and how do they survive? \_\_\_\_\_

Flora and Fauna together form \_\_\_\_\_

What does this food chain create? \_\_\_\_\_

**Please Label the Mountain  
Forest Food Chain found  
on pg. 61**
